Bolt Technology
Company Overview

Super-app for transportation and delivery offering ride-hailing, e-scooters, and food delivery

Company Overview

- Founded in 2013 and headquartered in Tallinn, Estonia, Bolt is a leading European mobility super-app offering ride-hailing, micromobility, and food delivery services
- Competes with global players through a low-cost model, strong local execution, and focus on emerging and underserved markets
- Expanding into shared mobility and last-mile logistics, leveraging a unified platform and strong network effects
- **Growth Focus:** Expanding geographic footprint, scaling micromobility fleets, and improving unit economics across ride-hailing and delivery

Bolt Technology
Company Overview

Super-app for transportation and delivery offering ride-hailing, e-scooters, and food delivery

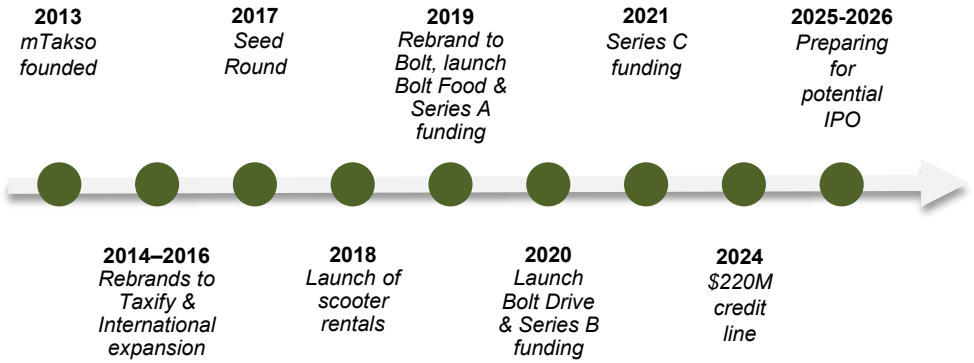

Platform Overview

Bolt Rides
- Bolt's core service that connects passengers with drivers for on-demand rides
- It operates in 40+ countries and generates the majority of the company's revenue

Scooters, Bikes & Car-Sharing
- Europe's largest shared micromobility network (e-scooters and e-bikes) plus a growing car-sharing service
- Offers flexible, short-distance transport and first-/last-mile connectivity

Bolt Food & Bolt Market
- A platform for delivering restaurant meals (Bolt Food) and groceries (Bolt Market)
- Operates in 16 markets and uses both Bolt's own couriers and partner stores
