Field
Company Overview

Next-generation energy storage developer supporting grid flexibility and net-zero transition

Company Overview

- Founded in 2021 and headquartered in the UK, Field is a cleantech company building and operating battery energy storage systems (BESS)
- Develops large-scale battery projects that store renewable energy and stabilize the grid, accelerating the transition to net zero
- Generates revenue through grid balancing services, capacity markets, and energy trading optimisation
- Focused on building a pipeline of utility-scale battery sites across the UK and Europe Vertically integrated model covering development, financing, construction, and asset optimisation
- **Recent Growth Focus:** Scaling multi-gigawatt storage pipeline, expanding into European markets, and strengthening energy trading capabilities

Field
Company Overview

Next-generation energy storage developer supporting grid flexibility and net-zero transition

Product Overview

Grid-Scale Battery Energy Storage Systems (BESS)

Asset type

- *Stand-alone or co-located battery storage*

Technology

- *Primarily lithium-ion (LFP)*

Capacity

- *Typically 20-100+ MW per site*

Corporate Timeline

2020
Virmati Energy founded

2021
Rebrand & Early Development

2022
First Major Capital Raise & Project Pipeline Build-Out

2023
Operational Milestones & Market Entry

2024
Major Growth Capital & European Expansion

2025
Scaling to a Pan-European BESS Platform

Key Management

Amit Gudka
Founder & Chief Executive Officer
- Co-Founder of Bulb Energy
- Former Vice President of European Gas and Electricity trading at Barclays
