Lovable
Company Overview

Generative AI platform for creating fully functional apps and websites with conversational prompts

Company Overview

- Founded in 2023 and headquartered in Stockholm, Sweden, Lovable is a pioneering "vibe coding" platform that allows users to build apps and websites using natural language prompts
- Enables full-stack development from concept to deployment, covering front-end, back-end, authentication, databases, and CI/CD, without traditional coding
- Powered by major AI models from OpenAI, Google, and Anthropic, delivering production-ready outputs through a user-friendly chat interface
- Recognized as the fastest-growing software startup ever, reaching $100M ARR in record time, surpassing benchmarks set by OpenAI, Cursor, and Wiz
- Enterprise offering features include SSO, private projects, reusable templates, enhanced security, and data opt-out
