Tekever
Company Overview

Tech-driven defense platform delivering autonomous aerial systems for ISR and border surveillance missions

Company Overview

- Founded in 2001 and headquartered in Portugal, Tekever is a defence and aerospace company specializing in unmanned aerial systems (UAS) and advanced intelligence solutions
- Designs and manufactures long-endurance surveillance drones, with flagship platforms widely deployed for maritime surveillance, border control, and military ISR missions
- Strong positioning in defence and security, serving NATO countries, European armed forces, and government agencies
- International footprint with operations across Portugal, the UK, France, and other European markets

Tekever
Company Overview

Tech-driven defense platform delivering autonomous aerial systems for ISR and border surveillance missions

Product Overview

Aerial Platforms

- **AR3:** Tactical ISR drone for maritime & land missions
- **AR3 Evolution (VTOL):** Rapid deployment, confined-space operations

Software & ISR Stack

- Proprietary command, control & data fusion systems
- Secure communication & real-time intelligence processing

Space & Comms (Early-stage)

- Nano-satellites and communication systems enabling continuous intelligence collection

Corporate Timeline

2001 *TEKEVER founded*

2006 *International expansion begins*

2010 *Growth in European defence programs*

2021–2022 *Early funding & Series A*

2024 *Major Series B & NATO-aligned backing*

2025 *Unicorn Status*
